

# MPOX SITUATIONAL REPORT

## National Public Health Institute of Liberia (NPHIL)

<b>REPORTING PERIOD:</b>	<b>Aug 5-7, 2025</b>
<b>NUMBER:</b>	<b>62</b>
<b>DATE:</b>	<b>August 7, 2025</b>

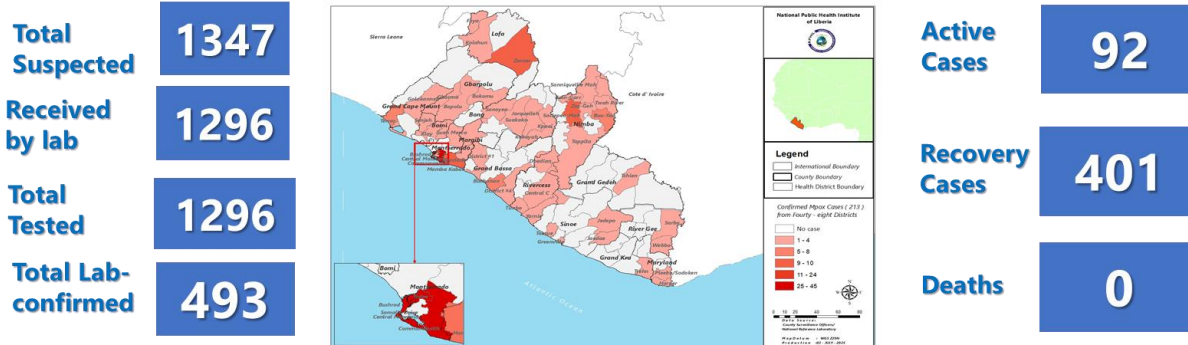

**Table 1: Key Indicators**

Reporting year	Suspected cases	Confirmed cases	Death (confirmed cases)	Case Fatality Rate (CFR) [%]	Counties Affected (confirmed cases)	Districts Affected (confirmed cases)
2025 (Jan-present)	936	430	0	0	15	48
2024 Cumulative	411	63	0	0	14	32

### HIGHLIGHTS

- **Twenty-five (25) new confirmed cases reported from Montserrado (23), Margibi (1), Grand Bassa (1)**
- Thirty-seven (37) new suspected cases reported from 5 Counties: Montserrado-29, Grand Bassa-3, Margibi-2, Sinoe-2, Bomi-1
- Zero (0) Death recorded
- **Four hundred, eighty-seven (487) total confirmed cases reported since declaration of Mpox as Public Health Emergency of Continental and International Concern by Africa CDC and WHO, respectively**

## Liberia Mpox Case Update: Jan 1, 2024 – Aug 7, 2025

**Total confirmed: 493** (Nimba 39, Lofa 16, Bong 20, Rivercess 17, Sinoe 8, Grand Bassa 18, Montserrado 301, Margibi 23, Gbarpolu 4, Maryland 6, River Gee 3, Grand Kru 2, Bomi 11, Grand Cape Mount 21, Grand Gedeh 4)

Confirmed Cases:

309

184

Call 4455 to report suspected cases

**NOTE: Latest update after testing resumed 28<sup>th</sup> June 2025, but Surveillance, Active Case Search, and Case Management continue**

**Figure 1: Summary of geospatial distribution of Mpox cases reported in Liberia, Jan 1, 2024 – August 7, 2025**

**Table 2: Confirmed Mpox Cases Reported by Counties and Health Districts, Liberia, Jan 1, 2024-August 7, 2025**

Reporting County	Reporting District	Active Cases	Recovered	Cumulative
Bomi	<b>Senjeh</b>	0	1	1

<b>Total</b>	<b>60</b>	<b>92</b>	<b>401</b>	<b>493</b>

**Table 3: Summary of Mpox outbreak, Liberia, Jan 1, 2024 – August 7, 2025**

Total suspected cases reported to the national level	<b>1,347</b>
Total samples collected	<b>1,316</b>
Total samples tested	<b>1296</b>
Total samples rejected by the laboratory	<b>21</b>
Total Laboratory confirmed	<b>493</b>
Total confirmed cases alive	<b>493</b>
Total deaths among confirmed cases	<b>0</b>
Case fatality rate (CFR)	<b>0.0%</b>
Total confirmed cases in isolation (health facility)	<b>10</b>
Total confirmed cases in isolation (home-based care (HBC))	<b>82</b>
Total contacts line-listed	<b>3,607</b>
Total contacts undergoing 21 days follow up	<b>418</b>

## **PUBLIC HEALTH ACTIONS**

### **1 Coordination**

- Conduct regular IMS meetings at national and subnational levels in affected counties to direct response efforts
- Production of regular Sitreps and dissemination

### **2 Surveillance**

- Active media scanning and community case finding continue through EIOS platform
- Continuous follow-up with response counties to obtain updates on status of Mpox outbreak
- Total of 418 contacts undergoing follow up (Montserrado-220, Grand Bassa -25, Nimba-84, Rivercess -32, Maryland-21, Grand Gedeh-13, Grand Cape Mount-8, Margibi-15)

### **3 Case management**

- Ninety-two (92) cases in isolation (Montserrado-75, Rivercess-6, Grand Bassa-4, Nimba-3, Grand Cape Mount- 1, Margibi-1, Sinoe-1, Bong-1)

#### **4 Laboratory**

- Sequencing results showed Monkeypox virus (Mpox Clade IIa and Clade IIb)

#### **5 Risk Communication and Community Engagement**

- Ongoing community engagement and awareness creation via a radio station in partnership between the RCCE team and affected County Health teams

#### **5 Immunization**

- Ongoing vaccination of contacts in affected counties
- Mpox immunization scope to be expanded

#### **Key Challenges**

- Limited logistics for response operation (gasoline, communication cards, fuel, lubricant, etc.) to support response in the affected counties
- Risk communication and awareness materials needed

#### **Steps/Action Points**

- Continue active case search in the affected communities
- Continue contact identification in affected Counties
