

MPOX SITUATIONAL REPORT

National Public Health Institute of Liberia (NPHIL)

REPORTING PERIOD:	Aug 22-25, 2025
NUMBER:	67
DATE:	August 25, 2025

Table 1: Key Indicators

Reporting year	Suspected cases	Confirmed cases	Death (confirmed cases)	Case Fatality Rate (CFR) [%]	Counties Affected (confirmed cases)	Districts Affected (confirmed cases)
2025 (Jan-present)	1093	545	0	0	15	53
2024 Cumulative	411	63	0	0	14	32

HIGHLIGHTS

- **Eight (8) new confirmed cases reported from Montserrado County**
- *Eight (8) new suspected cases reported from Montserrado*
- Zero (0) Death recorded
- **Six hundred, two (602) total confirmed cases reported since declaration of Mpox as Public Health Emergency of Continental and International Concern by Africa CDC and WHO, respectively**

Liberia Mpox Case Update: Jan 1, 2024 – Aug 25, 2025

Total confirmed: 608 (Nimba 46, Lofa 18, Bong 20, Rivercess 19, Sinoe 9, Grand Bassa 19, Montserrado 400, Margibi 25, Gbarpolu 4, Maryland 6, River Gee 3, Grand Kru 2, Bomu 11, Grand Cape Mount 22, Grand Gedeh 4)

Confirmed Cases:

379

229

Call 4455 to report suspected cases

NOTE: Latest update after testing resumed 28th June 2025, but Surveillance, Active Case Search, and Case Management continue

Figure 3: Age and sex distribution of confirmed Mpox Cases Reported, Liberia, Jan 1, 2024 – August 25, 2025

Table 3: Summary of Mpox outbreak, Liberia, Jan 1, 2024 – August 25, 2025

Total suspected cases reported to the national level	1,504
Total samples collected	1,464
Total samples tested	1428
Total samples rejected by the laboratory	21
Total Laboratory confirmed	608
Total confirmed cases alive	608
Total deaths among confirmed cases	0
Case fatality rate (CFR)	0.0%
Total confirmed cases in isolation (health facility)	14
Total confirmed cases in isolation (home-based care (HBC))	100
Total contacts line-listed	3,607
Total contacts undergoing 21 days follow up	418

PUBLIC HEALTH ACTIONS

1 Coordination

- Conduct regular IMS meetings at national and subnational levels in affected counties to direct response efforts
- Production of regular Sitreps and dissemination

2 Surveillance

- Active media scanning and community case finding continue through EIOS platform
- Continuous follow-up with response counties to obtain updates on status of Mpox outbreak
- Total of 418 contacts undergoing follow up (Montserrado-220, Grand Bassa -25, Nimba-84, Rivercess -32, Maryland-21, Grand Gedeh-13, Grand Cape Mount-8, Margibi-15)

3 Case management

- One hundred fourteen (114) cases in isolation (Montserrado-99, Nimba-5, Rivercess-2, Grand Bassa-3, Lofa-2, Margibi-2, Sinoe-1,)

4 Laboratory

- Sequencing results showed Monkeypox virus (Mpox Clade IIa and Clade IIb)

5 Risk Communication and Community Engagement

- Ongoing community engagement and awareness creation via a radio station in partnership between the RCCE team and affected County Health teams

5 Immunization

- Ongoing vaccination of contacts in affected counties
- Mpox immunization scope to be expanded

Key Challenges

- Limited logistics for response operation (gasoline, communication cards, fuel, lubricant, etc.) to support response in the affected counties
- Risk communication and awareness materials needed

Steps/Action Points

- Continue active case search in the affected communities
- Continue contact identification in affected Counties
